Rubberwood plantation core Birch veneer — Examples reported: 9 x 1233 x 2452 mm / 5-ply; 15 x 1233 x 2452 mm / 10-ply / UV-painted; 18 x 1233 x 2452 mm / 11-ply; 11.5 x 1220 x 2440 mm / 7-ply / melamine glue	United States South Korea
Acacia Pine Melaleuca Plywood — Standard and custom-designed pallets; 2-way and 4-way pallets; listed pallet sizes include 120 x 1100 x 1100 mm and 135 x 1130 x 1130 mm	Vietnam Japan South Korea
Eucalyptus Acacia Pine Styrax Rubberwood Mixed Light Hardwood (MLH)	
Planted acacia or eucalyptus core Imported pine veneer faces — reported examples: 5.2 / 11.5 / 17.5 x 1220 x 2440 mm; 3 / 7 / 11 plies	United States Hong Kong (trade-data listing; verify)

Reported export examples: Okoume plywood, 1220 x 2440 mm, 6 / 9 / 12 / 16 / 18 mm thickness	India (trade-data listing; verify)
Special-size panels reported: 10 x 4 ft and 9 x 4 ft	United States Japan India Middle East (public company-profile claim; verify)
HWPW-VC reported: 4.5-25 mm, 5-16 plies	

Reported panel sizes include 1220 x 2440 mm and thickness from 3 mm; rubberwood, eucalyptus, hardwood and acacia cores; E0 / E1 / E2 / WBP / MR / melamine glue options (verify)	Vietnam South Korea China Taiwan United States (third-party profile; verify)
Public trade records describe multi-layer veneered plywood panels with birch, white-oak or poplar face layers and acacia/eucalyptus cores; reported sizes around 1232 x 2451 mm (verify)	United States Europe (job and trade-data listings; verify)
HWPW-VC: 5-14 mm, 3-9 plies Laminated products: 4-23 mm, 3 plies, MDF/tMDF core 3-15 mm and face veneer 0.5-4 mm (ICC-ES certificate scope)	
Reported export example: plantation acacia/eucalyptus plywood, 17.5 x 1220 x 2440 mm, 11 plies	India Netherlands Malaysia (trade-data listing; verify)
Public catalogue listings include red-glue coated formwork, water-resistant birch plywood, bamboo film-faced formwork and birch-veneer-faced panels; exact grades and dimensions require confirmation	Vietnam nationwide Export (company-directory claim; verify)
	Vietnam nationwide Europe (company-directory claim; verify)

Public trade-data example: CARB P2 plywood, 18 x 1220 x 2440 mm	Malaysia (trade-data listing; verify)
	Vietnam nationwide Export activity reported by trade-data sources
Public certification scope: HWPW-VC, 3 plies and above, 5-18 mm; HWPW-CC with MDF core, 3 plies and above, 3-18 mm. Public product example: pine faces, 9 x 1220 x 2440 mm, E0 glue.	United States and other export markets indicated by trade/regulatory records; exact active markets require confirmation
Official certification scope: HWPW-VC, 2.7-30 mm, 3-19 plies. Public trade examples include heat-treated plantation-wood/acacia plywood at 1220 x 2440 x 15 mm and 1230 x 2450 x 14.5 mm.	Export activity reported in 2021-2022 trade data; current destination markets require confirmation
Public export examples: 1220 x 2440 mm industrial plywood at 2.7 / 5.0 / 5.5 mm; acacia, eucalyptus or linden core with imported Radiata pine faces. 2025 DOP lists acacia film-faced plywood FVA at 12 / 15 / 18 / 20 / 21 x 1250 x 2500 mm	United States confirmed in public trade data; other active markets require direct confirmation
Official ES-122 scope: HWPW-VC, 5-25 mm, 3-15 plies; HWPW-CC, 3-22 mm, 3 plies. Public trade examples include 12 x 1232 x 2452 mm and 5.2 x 1232 x 2452 mm white-birch-faced plywood with eucalyptus/acacia core	United States confirmed in public trade and U.S. Commerce records; Hong Kong and Singapore reported by trade-data sources; current mix requires confirmation
Official 2022 certificate scope: HWPW-VC, 5.2-18 mm. Public 2025 shipment descriptions include black HPL on two sides with eucalyptus/acacia core.	United States and Hong Kong indicated in public shipment records; current markets require confirmation

	United States India South Korea (company website claim; verify current markets)
HWPW-VC 8 / 10 / 11 / 12 mm in the June 2026 SGS certified-client list. Company page lists European oak, hard maple and hickory with UV lacquered/oiled, ultra-matte, brushed, antique, hand-scraped and stained finishes.	United States confirmed by current bill-of-lading records; other markets require verification
Public trade examples include bintangor face veneer at 2500×1300×0.25 mm and laminated eucalyptus-core panels; current specifications require direct confirmation.	United States confirmed in trade and U.S. Commerce records; current market mix requires confirmation
Trade examples: 1220×2440 or 1230×2450 mm; 5.2 / 12 / 18 mm; 3 / 7 / 11 plies; one- or two-side UV coating. Raw woods reported include pine, acacia and chinaberry.	United States confirmed; Chile reported in public trade data; current market mix requires confirmation
Public trade examples include 1220×2440×5 mm three-ply industrial plywood with imported birch veneer faces and tallow-wood / planted-eucalyptus core. Imported veneer examples include 1270×2500×0.30-0.35 mm.	Thailand and Malaysia confirmed in public trade data. U.S. sourcing requires trade-compliance review.
Current certification scope lists HWPW-VC 3-30 mm. Public shipment examples include 1250×2440×18 mm, 13-ply birch-faced eucalyptus-core panels and 1232×2451×3.6/5 mm furniture panels.	United States confirmed by 2025 shipment records; other markets require confirmation
Supplier listing claims film-faced A2 plywood using rubber, acacia and pine, E1 formaldehyde class, density around 750 kg/m ³ and moisture below 14%. These specifications and product ownership require direct confirmation.	Export markets not independently verified; supplier listing names Da Nang as the shipment port
Public trade examples include 2440×1220×15 mm birch plywood and 9×1220×2440 mm five-ply poplar plywood. Trade directories also associate the company with acrylic MDF, ash plywood and bamboo decking; product ownership.	Import/buyer activity in Vietnam is visible in public trade data; export markets are not independently verified
The public certified-mill list identifies hardwood plywood with veneer core. Detailed species, dimensions, grades, glue and capacity were not found and require direct confirmation.	Export markets not independently verified

Public shipment records describe hardwood packing plywood and birch plywood; one 2025 shipment description references TSCA. Detailed dimensions, grades, species and glue require direct confirmation.	United States and Philippines confirmed in public trade data
Official website lists Bintangor-, Birch-, Okoume- and Poplar-faced plywood. Public shipment examples include 18×1220×2440 mm, 11-layer film-faced acacia-core plywood and birch-faced magnolia-core plywood in 8 5/11 5/11 5/17 5×1220×2440 mm 5/7/11	United States and South Korea confirmed in public shipment data; company website also claims Japan, Malaysia, India and China
The principal registered activity is manufacturing plywood, veneer and other thin wood boards. Species, dimensions, grades, glue, capacity and export history were not found in reliable public sources and require direct confirmation	Not independently verified
Public company profile lists waterproof, film-faced, formwork, container-flooring, interior, construction, bed-slat and packaging plywood. Detailed dimensions, species, grades and glue require current factory confirmation	Europe and United States reported in 2022; approximately 100 containers/month was reported for 2021 and must be revalidated
Public product profiles list Okoume/Bintangor/Styrax-faced packing plywood with acacia, eucalyptus or mixed-hardwood core; grades A/B, B/B and B/C; MR mixed glue; 1220×2440 mm or custom; 3-30 mm. Commercial plywood is reported	India, United States and South Korea supported by public trade data
The principal registered activity is manufacturing plywood, veneer and other thin wood boards. Species, dimensions, grades, glue type, capacity and export history were not found in reliable public sources and require direct factory	Not independently verified
Public trade records show MDF-core panels around 2.7–5.2 mm with oak, maple or birch faces and UV coating, plus acacia/eucalyptus-core plywood in 5/7/11 layers and examples around 12.7–18 mm. Exact current catalogue grades glue	United States confirmed by provincial reporting and U.S. shipment data; public trade platforms also report Poland and Vietnam
Public provincial technical-project report describes plantation acacia/eucalyptus inputs; Birch, Bintangor and phenolic-film faces; thermosetting formaldehyde-based resin and MUF trial production. Exact current grades dimensions and glue systems	United States, European Union, South Korea, Japan and domestic Vietnam reported by a provincial technical-project document
Company website lists furniture, construction and packaging plywood; Birch, Okoume and pine faces; peeled acacia/eucalyptus veneer and pellets. Exact current grades, dimensions, core composition and glue/emission options require catalogue	United States, India and South Korea reported by the company website

Public CARB mill list identifies HWPW-VC (hardwood plywood with veneer core). Species, face/back, dimensions, grades, glue system, capacity and current catalogue were not found in reliable public sources and require direct confirmation	Not independently verified
Public certification records cover multi-layer engineered hardwood flooring up to 20 mm and HWPW-VC hardwood plywood in the 9–20 mm range using ULEF resin. Exact species, dimensions, grades, glue systems and current catalogue require factory confirmation	United States, United Kingdom, Hong Kong, China and Vietnam appear in commercial trade databases; destination and shipment scope require direct confirmation
Public trade records describe core veneer and 10-layer plywood made from domestically purchased rubberwood veneer. A public mill list associates the company with HWPW-VC. Species, grades, dimensions, glue system, emission class and current catalogue require factory confirmation	Malaysia appears in public core-veneer shipment data; other export markets were not independently verified
Trade records describe white-birch face/back with eucalyptus or acacia plantation core; an example shipment lists 16 × 1,220 × 2,440 mm with 10 core layers. Current species, grades, glue system, thickness range and catalogue require direct confirmation	United States is a major reported market; additional markets appear in commercial trade databases but require factory confirmation
Public certification scope: HWPW-VC, 3–25 mm, 3–15 plies. 2026 trade records include 8.5/11.5/14.5/17.5 × 1,220 × 2,440 mm plywood; bintangor or canarium faces and bodhi, acacia/eucalyptus or mixed plantation-wood cores appear in shipment descriptions	South Korea and Indonesia are evidenced in 2026 trade records; other markets require factory confirmation
Public certification scope found for HWPW-VC in the 8–21 mm range. Trade records show examples including oak-faced/birch plywood flooring and white-oak laminate flooring in multiple dimensions. Species, grades, glue systems, emission classes and current catalogue require factory confirmation	United States and Europe are reported by the project partner; commercial trade databases also show international shipments, subject to direct verification
A public mill list associates the supplier with HWPW-VC plywood. No reliable public catalogue, dimensions, species, grades, glue system or capacity were independently found.	Not independently verified
Official site identifies Vietnamese acacia, eucalyptus and styrax core options. Public listings and shipment records show melamine-faced plywood, acacia/eucalyptus cores and common 1,220 × 2,440 mm panels. Published certification scope for panels requires factory confirmation	United States, Canada and Europe are stated on the official company website; commercial shipment databases also show U.S.-bound plywood
Public company-verified directory lists film-faced formwork, water-resistant, coated, interior, packaging and partition plywood. Public mill list associates HWPW-VC products with CARB Phase 2, but dimensions, species, grades, glue systems and current catalogue require factory confirmation	Vietnam and international markets; directory names Malaysia, South Korea, Middle East, Japan, Thailand, Laos and India, subject to direct confirmation

Official website lists multi-ply and 3-ply engineered hardwood flooring; 10, 11, 13.5, 14, 15, 16, 18, 20 and 21 mm options, including tongue-and-groove, click, herringbone, parquet and chevron profiles. Public CARR listing covers HWPW VC 3, 25	United States and Japan are stated in a regional export catalogue; company website and commercial shipment records also evidence international activity

short_description	image_path
Plywood manufacturer with two reported production sites in Lam Dong. Submitted information states equipment capacity of 120,000 m ³ /year and recorded shipments to the United States and South Korea. Claims require qualification before publication.	
Manufacturer of wood pallets, plywood pallets, wooden crates and packaging products, with reported branches in Bac Ninh and Thai Nguyen. Submitted information lists domestic, Japanese and South Korean markets.	
Registered wood-processing manufacturer with plywood and veneer as its principal business line. Capacity, detailed product specifications, export markets and certifications were not included in the submitted file.	
Plywood manufacturer in Lang Son with two reported production facilities, focused on furniture, commercial, packaging and industrial plywood. The submitted profile references product positioning for European and North American requirements, not confirmed export markets.	
Plywood, LVL and veneer manufacturer. Company-provided figures indicate a 20,000 m ² factory and approximately 3,000 m ³ /month production capacity, equivalent to about 40 containers/month.	
Registered wood-processing manufacturer focused on plywood, veneer and related wood products. Capacity, workforce, specifications and export markets were not included in the submitted file.	
Plywood manufacturer established in 2005. Submitted company information indicates plywood and particleboard/Okal-related manufacturing; operational metrics and export markets were not included.	
Registered company in Chon Thanh, Binh Phuoc. A third-party certified-mill compilation lists the company for hardwood plywood with veneer core under CARB Phase 2 and TPC-43; certification evidence and operating capability require direct verification before publication.	https://drive.google.com/drive/folders/1-qVI0qsRpv3SwGTRM8AdQhIYw8bzOIV5
Plywood producer registered in Van Lam, Hung Yen. Public trade-data listings report acacia- or eucalyptus-core plywood with imported pine veneer faces and shipments associated with the United States and Hong Kong. Product, market and certification claims require direct document verification.	https://drive.google.com/drive/folders/1J7iruSi2U7E1eFUQtj5a5my-9kIUk7c2

Wood-products company registered in Bao Yen, Lao Cai, with plywood manufacturing listed as a principal business activity. Public trade-data pages report Okoume plywood in several standard thicknesses and an India-linked shipment record; capability and market claims require direct verification.	https://drive.google.com/drive/folders/1Vny1fBBMZQiNMwxpMEFY06BmLxv4QFs2
Plywood manufacturer at the Southern Industrial Zone in Yen Binh, Yen Bai. Public profiles describe an export-oriented factory producing industrial and decorative-faced plywood; all capacity, workforce, market and certification claims require document verification before publication.	https://drive.google.com/drive/folders/1Wc8c72HKdltouaWN5u8Yg4PnHyHrBrXF
Wood-industry company registered in Tan Uyen, Binh Duong. Public information is limited; production capability, capacity, products, export markets and certifications require direct verification before publication.	https://drive.google.com/drive/folders/16UNU0zf9WTAPT2DfXYbw8rJPjVIOUDyw
Company registered in Hai Phong with wholesale construction materials as the principal registered activity and plywood/veneer manufacturing among registered activities. Factory ownership and production capability are not confirmed and require direct verification.	https://drive.google.com/drive/folders/1aQHJJFeGv1uGNUwFATdyeSuT0DhGbEnt
Plywood production branch at Dong Hoi North Industrial Zone, Bo Trach, Quang Binh. Public certification material identifies a hardwood-plywood veneer-core production line; commercial capability requires MISO qualification.	https://drive.google.com/drive/folders/12dnH49tZwydnWQF9DlG1acef0A8j7RI
Wood-processing branch registered in Ben Cat, Binh Duong. Public operational information is limited; production capability, products, capacity, export markets and certifications require direct verification.	https://drive.google.com/drive/folders/1gvBHS0NgJ2E9D73AYSiyce5MzHXBd8CD
TEKCOM production branch in the expanded Nam Tan Uyen Industrial Park, Binh Duong. Public company imagery shows a branded manufacturing campus; product scope and certifications require document verification before publication.	https://drive.google.com/drive/folders/1AhtEqaNyPs_HKcl9rk4chL_XjrYKHv2
Registered business location in Diem Thuy, Phu Binh, Thai Nguyen. Public search results show plywood-related operations, but capacity, workforce, product specifications and certification documents require direct verification before publication.	https://drive.google.com/drive/folders/1JCtLO6xn1kxQLfZlhWGxrmqkGaHD3rQC
Branch associated with a Binh Duong company whose registered activities include plywood, veneer and other wood-panel manufacturing. Factory ownership, operating status, capacity and certification documents require direct verification.	https://drive.google.com/drive/folders/1y7Vy-Fj60n3g1bds4k6vGHidUCvQQt_F

Wood-products company in Sao Vang, Tho Xuan, Thanh Hoa. The company website presents plywood and wood-panel products; production capacity, workforce, export markets and certification documents require direct verification.	https://drive.google.com/drive/folders/1LMVGXZuledZT2fGxwTmDgsd2QkUmyGoE
Plywood manufacturer in Tam Hiep Industrial Park, Nui Thanh, Quang Nam. Public profiles and branded imagery indicate plywood and veneer production; workforce, site area, markets and certification claims require direct verification before publication.	https://drive.google.com/drive/folders/1-nDVoQFwZFHH7xIGEzu_FNdL0vfHfD7Y
Export-oriented plywood company associated with Lot 17, Noi Hoang Industrial Cluster, Yen Dung, Bac Giang. Newer tax records show a separate registered address at Bai Lat, Tam Tien; the current operating and catalogue-receiving site must be confirmed by phone.	https://drive.google.com/drive/folders/1zzHhYY03kEpgXY_Tf6wOJKONGLmCsTbV
Active company registered in Phuoc Hoa, Phu Giao, Binh Duong with plywood, veneer and other wood-panel manufacturing as its principal activity. The original source list places the company in Chon Thanh, Binh Phuoc; this location conflict requires direct confirmation.	https://drive.google.com/drive/folders/1EA24Jt-SD1DiHDRIFEguXB0A0jsbHhxT
Wood-products manufacturer registered at Vuon Vu Hamlet in the former Bac Tan Uyen administrative area. ICC-ES certificates identify the same production line for hardwood plywood and laminated products; current certificate validity and operating capability should be confirmed directly.	https://drive.google.com/drive/folders/1r1cdhmPH8qB-FchB4FOY1oWHSrdTz_Ow
Plywood and wood-products manufacturer headquartered in Phuoc Hoa with three publicly registered branches in the former Binh Duong area. Exact-name social posts show a plywood production line, warehouse stock and plywood products; capacity and current export markets require direct verification.	https://drive.google.com/drive/folders/1UdhnW1blFdfCgtY-UNqiKV82lpwhqEtx
Plywood manufacturer in Ha Hoa, Phu Tho. Government and press sources describe an operating plywood factory and a 2025 project to upgrade hot-press technology; public trade data reports shipments to India, the Netherlands and Malaysia.	https://drive.google.com/drive/folders/1EbaELFs nDitbsg723qVqrPbpxqlFMdik
Plywood supplier/manufacturer registered in My Phuoc, Ben Cat, Binh Duong. Public company-directory material lists film-faced, birch, furniture and industrial plywood and claims nationwide and export supply; capacity, specifications and certification documents require direct verification.	https://drive.google.com/drive/folders/1XZ8lcs-WQOaS-YoYY47W33mwnTJS11p4
Wood-products company founded in 2008 with a factory publicly listed at Hoi Nghia, Tan Uyen, Binh Duong and a head office in the Van Phuc area of Ho Chi Minh City. Product, market, workforce, capacity and certification claims require direct verification.	https://drive.google.com/drive/folders/1h_I77FUctwHLfqkqOm_4DZHNPeGsrZwf

Wood-panel company registered in Ho Nai Industrial Park, Trang Bom, Dong Nai. Registered activities include plywood, veneer, thin wood panels and sawn/planed wood. A branch registered in 2025 has conflicting public operating-status records and requires direct confirmation.	https://drive.google.com/drive/folders/1ru5hg8YkXaKlZly5g5vXfAvg_EhF5QvG
Active plywood manufacturer registered in Village 12, Xuan Phu, Tho Xuan, Thanh Hoa. Public sources identify plywood manufacturing, Malaysian trade activity and CARB Phase 2 mill-list coverage. A U.S. trade proceeding separately lists the company as ineligible for the order-specific certification program, so U.S. bound eligibility requires specialist verification.	https://drive.google.com/drive/folders/1GMvPPArAFJgu9lbNDLOWjlQyhEhXuSqu
Active foreign-invested plywood manufacturer in Tan Hiep, Tan Uyen, with a second plywood branch registered at Cong Xanh, former Bac Tan Uyen. Public company profiles show plywood production lines, stock and a broad product range; current address, representative and certification documents require direct confirmation.	https://drive.google.com/drive/folders/1acWQXvcpKfeHm5HhKk_ZLCpwrMvxP3Uf
Plywood and wood-products company operating in Nguyen Khe Industrial Cluster, Dong Anh, Hanoi. Registry, certification and U.S. trade records confirm plywood-related activity. Public records conflict on lot number and legal representative, and the current certificate status requires direct verification.	https://drive.google.com/drive/folders/1G3zAqonG87SPHQm41qCsDm4lcJXEO1Dt
Active plywood manufacturer with its certified production line in Da Phuc Port Industrial Complex, Pho Yen, Thai Nguyen. Official certification and customs records confirm hardwood/acacia-core plywood activity. The available ES-151 certificate expired on 26 June 2026, so a current certificate must be obtained before publication or buyer use.	https://drive.google.com/drive/folders/1xnuooAZ8l3ltmaspHt0W_FjTYmBpSX-B
Active wood-processing and plywood manufacturer registered at Cat Lam 2, former Phu Lam commune, Doan Hung, Phu Tho. Registry records confirm plywood-related activities, while public mill lists associate the company with veneer-core hardwood plywood. Contact phone records differ by one digit and certification evidence requires direct verification.	https://drive.google.com/drive/folders/1fG0e-NXHpl0xxsHLIXTVTsgaYxDif-_l
Active plywood manufacturer and exporter with a factory at Lien Tan, Bo Ha, Yen The. Registry, trade, product-declaration and press sources confirm substantial plywood activity. A 2024 local report stated that fire-prevention and environmental documents were not supplied during inspection; current compliance status must be verified before qualification.	https://drive.google.com/drive/folders/1Hlog0glqM3Lj5XMomfe7ngEkbfMrSYgt
Active plywood manufacturer and exporter at Chan Dong, Hoan Long, Yen My, Hung Yen. Registry, certification, recruitment and trade records confirm plywood production and exports. Workforce and market figures are public-source claims, while current certification must be reconciled because the official ES-122 certificate has expired and a later mill list names a different	https://drive.google.com/drive/folders/1dpTc0HnTIIBthKi8dsUmtSPDQ8giK_Re
Plywood manufacturer registered in Huu Lung, Lang Son. Government, registry, certification and shipment sources confirm plywood activity, but current business status conflicts: one registry source reports active while a newer tax listing reports operations stopped without completed tax closure. Qualification and catalogue outreach should remain on hold until	https://drive.google.com/drive/folders/1OPjkErCjuLMb4xdbqeZ1ChnaobtxitKy

Active plywood and industrial-wood manufacturer headquartered at Ben Luong, Minh Son, Huu Lung, Lang Son. The company website provides direct product, contact, factory-count, capacity and market claims and hosts plywood-production images. Capacity, second-factory location, export markets and current CARB certificate require documentary confirmation before buyer	https://drive.google.com/drive/folders/1m-20g9jlhxgGhBhh83PQXNmmlLyTm7nk
Active engineered-flooring and plywood manufacturer supported by an official group profile and the current SGS certified-client list. Workforce and capacity figures are company claims and should be confirmed directly before buyer-facing use.	https://drive.google.com/drive/folders/1qvRv59TvVVjv95d1whnSgvCGHrCRzNox
Active plywood factory supported by registry, provincial labor and trade evidence. Public authorities reported environmental violations in 2022 and a VND 140 million fine in 2024 for failure to operate required waste-treatment systems; current remediation and compliance evidence are required before qualification	https://drive.google.com/drive/folders/1fjDvJCmNZOzwPD3QNDeJgYprxVTBRGco
Active plywood manufacturer supported by registry, environmental-report and trade evidence. Published capacity comes from the environmental report; current certification, direct export contact and factory-owned images remain unresolved.	https://drive.google.com/drive/folders/14Urrj4q8YxwsbW1vp2weugH4ltlfk7l_
Active plywood producer established in 2024 with current customs activity and a named Vietnamese HR contact. The July 2026 final U.S. antidumping determination table names the company and shows a 90.12% estimated weighted-average dumping margin and an 84.95% cash-deposit rate adjusted for subsidy offsets. Specialist trade review is required before U.S.	https://drive.google.com/drive/folders/1j8LIPoitXYgWjkON7DyJbVlt_qALlp8O
Active plywood manufacturer with a current public CSI certification listing and U.S.-bound shipment evidence. The July 2026 final U.S. antidumping determination table names the company and shows a 90.12% estimated weighted-average dumping margin and an 84.95% cash-deposit rate adjusted for subsidy offsets. Specialist trade review is required before U.S.	https://drive.google.com/drive/folders/1mJDCHHu29s_FghOSza5ARxrCCVQdg2bl
Long-established wood-processing company with a Quảng Ngãi branch supported by government, labor-union and recruitment records. Public sources indicate wood chips, pellets and finger-jointed wood, while supplier listings also offer plywood and acoustic panels. Confirm that plywood is produced by this legal entity and obtain current certification before publication	https://drive.google.com/drive/folders/1Gq5bnrBT49RJBmX9p7_mT67pr4EITKQl
Active company established in 2023 and publicly associated with plywood-related trade. Its principal registered activity is wholesale construction materials rather than plywood manufacturing, so MISO should confirm the actual production site, factory ownership and product scope before presenting it as a manufacturer	https://drive.google.com/drive/folders/1wBpz8N2ih7RIVBDDDrKFfaRnZDbdsGMh
Active plywood manufacturer established in 2023. Registry data identifies plywood and veneer manufacturing as the principal activity, while a current public mill list records CARB Phase 2 hardwood plywood under TPC-43. The factory address, product specifications and export markets still require direct confirmation	https://drive.google.com/drive/folders/1NG-vS1W53olBy5VVOadvH_wZh6INSClq

Active plywood company with a newly registered 2026 production branch in Chợ Mới, Thái Nguyên and public export records to the United States and Philippines. The July 2026 final U.S. antidumping determination names HMTD and shows a 90.12% weighted-average dumping margin and an 84.95% adjusted cash deposit rate. Specialist trade review is required	https://drive.google.com/drive/folders/1_s4Gy6V3bYb3gEFhNxyjNjaFOYjxPI0Z
Active Phu Tho plywood manufacturer established in 2018. The official website and public trade records support a broad plywood range and exports to the United States and South Korea. Factory capacity, current compliance certificates and applicability of U.S. trade measures still require direct verification	https://drive.google.com/drive/folders/1-W5l9mQv3MMwiWPzglLr9J6kyTcu8m7w
Active company established in 2023 with plywood and veneer manufacturing as its principal registered activity. Public records conflict on the legal representative and provide little product or export evidence, so MISO should verify the actual production site, ownership, machinery and catalogue before publishing factory claims	https://drive.google.com/drive/folders/1cFp8KNEDBP2VKSGiieU7dV-al-l_jbf1
Established plywood and wood-flooring manufacturer with a reported 7-hectare site, approximately 15,000 m ³ annual capacity and nearly 600 local workers in a 2022 public report. The July 2026 final U.S. antidumping determination names Hoang Gia Yen Bai and shows a 90.12% weighted-average dumping margin and an 84.95% adjusted cash deposit rate	https://drive.google.com/drive/folders/1lb3kp1Eti-vD2EyX6Xc8SpYyLpb8omv-
Active Bắc Giang/Bắc Ninh plywood manufacturer established in 2018. Public product and shipment data support packing and commercial plywood exports. U.S. sourcing requires a current trade-compliance review because the company appeared in an earlier U.S. certification-process notice and no company-specific July 2026 rate was verified	https://drive.google.com/drive/folders/1if67yAFu2GcQRNcChRs74C-rZzQGUi4
Active company established in late 2023 with plywood and veneer manufacturing as its principal registered activity. Public operational evidence is limited, so MISO should verify the production site, capacity, product specifications, export markets, ownership and certificate scope before publication or sourcing.	https://drive.google.com/drive/folders/1i2DXFqYGs1fMTq7_qmtphuZMK8Q9HoTp
Foreign-invested Tuyên Quang plywood manufacturer established in 2019. Provincial documents report a 9,350 m ² project site, 9,200 m ² workshop and 10,500 m ³ /year designed capacity; a 2022 provincial article reported two plywood lines and direct U.S. exports. The July 2026 final U.S. antidumping determination names Huiling at a 90.12% weighted average	https://drive.google.com/drive/folders/1yVILRhhbxTy8HVLbgXcNYdzJOgb46RG
Bắc Giang plywood producer registered in 2018. A provincial technical-project report identifies a roughly 30,000 m ² factory, more than 100 workers and monthly capacity of about 1,000–2,000 m ³ . Current factory, catalogue, capacity and certificate scope should be reconfirmed before buyer-facing publication	https://drive.google.com/drive/folders/14p6PdjI0ASRijOpIvKc7JZSTiWCpg_pF
Active plywood and engineered-wood manufacturer established in 2016. The company reports two factories in Bắc Giang and Lạng Sơn with combined capacity up to 100,000 m ³ /year. U.S. Department of Commerce notices place the company in the hardwood-plywood certification/review framework; specialist trade review is required before U.S. sourcing commitments	https://drive.google.com/drive/folders/1CQs6NAwOZWR1Hx4Laz6nqvi9p0zypUXr

Low-public-footprint plywood producer located in Hưng Phước, Bù Đốp. Public provincial records and a CARB mill list support the factory identity, address and plywood activity, but legal-registration details, current capacity, products, export markets and active certificates remain to be confirmed by phone/email.	https://drive.google.com/drive/folders/193XVCGDZEItYAlI2W8USsLkOnML153OU
Active wood-products manufacturer registered in 2015 in Phú Chánh, Tân Uyên. Public company and certification records support engineered hardwood flooring and HWPW-VC activity. Contact, current product scope, capacity and certificate validity should be reconfirmed before buyer-facing publication.	https://drive.google.com/drive/folders/1f1K74S1UNQqfGUEA6DoYng0qFiSBzGNV
Active plywood and veneer manufacturer registered in 2018. Registry sources place the company at Tổ Hữu Street, Uyên Hưng, Tân Uyên, while the source workbook lists Thuận An. Address, current telephone, product scope, capacity, export markets and certificates require direct confirmation.	https://drive.google.com/drive/folders/1ciwsxcPaz51bWAr70IT75H8RiFo6ViFF
Large export-oriented plywood manufacturer operating in Phú Thọ since 2010. Provincial and press sources document a major Thụy Vân facility and substantial employment. Exact current capacity, certificate validity and U.S. landed-duty exposure must be reconfirmed before sourcing commitments.	https://drive.google.com/drive/folders/1E3FsI7wmAepvTz4Zwml0M2pScYQ4OWz1
Active plywood and wood-products manufacturer established in 2016. Public provincial reporting identifies a major export-wood project at Xuân Ái, while 2026 trade records show plywood exports to Korea and Indonesia. Capacity, current certificate validity and catalogue specifications require direct confirmation.	https://drive.google.com/drive/folders/1NvfFr6j6UyV7L_YTzeNF9ecNYxW6sIUf
Active foreign-invested wood-products manufacturer established in 2016 at Linh Trung III, Tây Ninh. Legal and project sources support plywood, composite flooring and wood-panel production. Current rated capacity, certificate renewals and U.S. landed-duty exposure must be confirmed before sourcing commitments.	https://drive.google.com/drive/folders/14mPxgwf4-97-U04RKWf8z1Jz5jZmBp-Z
Plywood supplier appearing in a public mill list with a named contact, Bình Chuẩn address, mobile and email. The exact registered legal entity, tax code, factory ownership, capacity, markets and current certificates were not independently matched and must be confirmed directly.	https://drive.google.com/drive/folders/1hdB-gCF96pU9s-JHBr9dMfrG1rOsqkJQ
Active plywood manufacturer established in 2018 with an operating website, verified factory imagery and broad decorative/construction plywood range. Current website reports two factories and 4,000 m ³ /month. U.S. trade-duty exposure and renewal of the public CARB/EPA certificate must be cleared before commitments.	https://drive.google.com/drive/folders/1_P2P07ONT5tlrQTIOW9VUxheX58oVnyO
Active plywood manufacturer at Trung Hà Industrial Park, established in 2014. Legal, employment and environmental-permit sources confirm plywood production. The company has several usable commercial and HR contacts, but current certificate copies, exact specifications, capacity and export mix require direct confirmation.	https://drive.google.com/drive/folders/1nOBdBK3cHROccHG0rmhAIJXUvgnJtlt

Active foreign-invested plywood and engineered-flooring manufacturer established in 2019 at Thanh Bình Industrial Park. The official website and current trade records support continued activity. Product range is well documented, but capacity and renewed FloorScore/FSC evidence require direct confirmation.	https://drive.google.com/drive/folders/18693m2zDGNfi7AvMrzBqOYjGs xWMxAM-

dev_note

Missing establishment year, workforce and images; confirm primary factory address and certification evidence.

Main products are pallets/crates/packaging; confirm inclusion in plywood directory and profile branch.

Missing capacity, workforce, detailed products, markets, certifications and images.

Two facilities reported; confirm canonical address. Europe/North America are standards, not confirmed export markets.

Capacity/workforce are company-reported; verify before publication. Images and certifications missing.

Missing capacity, workforce, product specifications, markets, certifications and images.

Confirm whether Okal should be published as particleboard and whether it is produced or traded.

DRAFT / CHỜ DUYỆT. Missing capacity, workforce, detailed specifications and export markets. Image folder created; images are search-result candidates and have not been factory-verified.

DRAFT / CHỜ DUYỆT. Missing capacity and workforce. Image folder created; images are search-result candidates and have not been factory-verified.

DRAFT / CHỜ DUYỆT. Missing capacity and workforce. Image folder created; images are search-result candidates and have not been factory-verified.

DRAFT / CHỜ DUYỆT. Image folder created with 3 Vietnamese-name search-result images; image identity is not factory-verified.

DRAFT / CHỜ DUYỆT. Image folder created with 3 Vietnamese-name search-result images; public factory information is sparse and image identity is not factory-verified.

DRAFT / CHỜ DUYỆT. Image folder created with 3 Vietnamese-name search-result images; factory status and image identity are not verified.

DRAFT / CHỜ DUYỆT. Image check: PASS for plywood/wood-factory relevance. Three search-result images show film-faced plywood products or plywood handling; exact image ownership was not independently verified.

DRAFT / CHỜ DUYỆT. Image check: PASS for wood-factory relevance. Three search-result images show wood processing lines and wood materials; exact branch identity was not independently verified.

DRAFT / CHỜ DUYỆT. Image check: PASS. Three images visibly show TEKCOM-branded factory buildings; factory-number attribution still requires direct confirmation.

DRAFT / CHỜ DUYỆT. Image check: PASS for plywood/wood-factory relevance. Three images show industrial wood-processing equipment and a plywood-factory entrance; exact business-location attribution was not independently verified.

DRAFT / CHỜ DUYỆT. Image check: PASS for wood-factory relevance. Three search-result images show a wood-material warehouse, panel-processing line and veneer; exact branch identity was not independently verified.

DRAFT / CHỜ DUYỆT. Image check: PASS. Three images show plywood or wood-panel products associated with C-Holding Wood search results, including the company's product page.

DRAFT / CHỜ DUYỆT. Image check: PASS. Three uploaded images show the Viet Hoa logo, VIET HOA PLYWOOD-branded product and a plywood production line; image ownership remains subject to direct company confirmation.

DRAFT / CHỜ DUYỆT. Image search completed, but no factory/product image could be tied to Greatrivier with sufficient confidence. Folder created and intentionally left empty to avoid uploading images of another wood company.

DRAFT / CHỜ DUYỆT. Image check rejected the two exact-name search results because they were a recruitment graphic and an unrelated meme, not factory or wood images. Folder created and intentionally left empty.

DRAFT / CHỜ DUYỆT. Exact-name image search returned administrative-place and unrelated recruitment images, not a verifiable factory image. Folder created and intentionally left empty.

DRAFT / CHỜ DUYỆT. Image check: PASS. Three exact-name social-post images show plywood-processing equipment, packaged plywood inventory and plywood products. Images are suitable as factory/product candidates; ownership should still be confirmed by the company.

DRAFT / CHỜ DUYỆT. Image check: PASS. Three exact-name/company-page or press images show the plywood production line, an apparent factory visit and plywood handling. Direct ownership confirmation remains advisable.

DRAFT / CHỜ DUYỆT. Image check: PASS for plywood relevance. Three search-result images show film-faced plywood, plywood handling and stacked panels; exact company ownership was not independently verified.

DRAFT / CHỜ DUYỆT. Image check: PASS. Six images from the exact company profile show plywood sheets, decorative plywood and wood-floor products. Certification/TPC conflict and the capacity unit must be verified by phone.

DRAFT / CHỜ DUYỆT. Correct Vietnamese name is ĐÌNH NGỌC PHÁT. Image check: PASS for plywood/wood-factory relevance; exact-name search did not yield factory photos, so three Trang Bom wood/plywood factory candidates were uploaded and are not company-verified.

DRAFT / CHỜ DUYỆT. Image check: PASS for plywood/wood-panel relevance. Three exact-query product images show plywood panels and stacked sheets; exact company ownership was not independently verified. U.S. trade-program eligibility is a separate risk from CARB certification and must not be conflated.

DRAFT / CHỜ DUYỆT. Image check: PASS. Three exact-name search images show a plywood hot-press line, warehouse and finished-panel stock. The company address and legal representative changed across public records; verify the current receiving site.

DRAFT / CHỜ DUYỆT. Image check: PASS for plywood/wood-factory relevance. Three search-result candidates show a wood factory, plywood stacks and a plywood sheet; exact company ownership is not independently verified. Public records conflict between Lot CN1/CN5 and Wang Huadong/Zhu Yuanguang.

DRAFT / CHỜ DUYỆT. Image check: PASS for plywood-factory/product relevance. Three images show plywood production, warehouse stock and finished sheets; exact Eastmark ownership was not independently verified. Current certification is HOLD until renewal evidence is received.

DRAFT / CHỜ DUYỆT. Image check: PASS for plywood/wood-factory relevance. Three Phu Tho factory candidates show a factory complex, plywood warehouse and production line; exact Forest Plywood ownership was not independently verified. Phone 0976091628 versus 0976091629 must be checked by call.

DRAFT / CHỜ DUYỆT. Image check: PASS. One aerial image is directly identified by the source article as the Fulin Wood factory; two additional Yen The images show plywood production and warehouse activity but are not confirmed as Fulin-owned. Current PCCC/environmental compliance and certification documents require verification.

DRAFT / CHỜ DUYỆT. Image check: PASS for an industrial company site and plywood production. The first image is attached to the company's recruitment profile; the other two show a Hung Yen plywood factory candidate and a plywood production line, but ownership by Greatwood Hung Yen is not independently verified. Current certification is HOLD pending.

DRAFT / CHỜ DUYỆT. Image check: PASS for plywood-factory relevance. One image is from a named plywood-production source in Huu Lung; two additional images show plywood production/pressing but are not confirmed as Greatwood-owned. Operating status and certificate validity are HOLD items.

DRAFT / CHỜ DUYỆT. Image check: PASS. All three images are hosted by the company's official website and clearly show plywood sheets, production equipment or packaged plywood stock. Company-owned capacity and export-market claims still require direct evidence.

DRAFT / CHỜ DUYỆT. Image check: PASS. All three images come from the official group page and clearly show wood, veneer or flooring production. The June 2026 SGS list is the strongest current certification evidence; workforce and capacity remain company claims.

DRAFT / CHỜ DUYỆT. Image check: PASS for wood/plywood relevance. Two images show the exact Greenwood factory exterior in named press reports; the third is a Phú Thọ plywood-factory candidate not confirmed as Greenwood-owned. Environmental compliance is HOLD. The historically listed ~~website now presents unrelated/unclear ownership and must~~

DRAFT / CHỜ DUYỆT. Image check: PASS for visible wood/plywood relevance, but all three are candidate industry images and are not confirmed as Groll-owned. The indexed environmental-report PDF later returned 404 at its direct URL, so the capacity wording should be reconfirmed from the ~~authority or factory.~~

DRAFT / CHỜ DUYỆT. Image check: PASS for visible plywood/wood-factory relevance. Two images were surfaced with the company's Vietnamese social/search results and show plywood stock or factory activity; the third is a Yên Bái wood-factory candidate not confirmed as Guan Wei-owned. U.S. ~~trade-compliance status is HOLD.~~

DRAFT / CHỜ DUYỆT. Image check: PASS for plywood-industry relevance. All three images show plywood manufacturing or a plywood-factory project in Bắc Kạn, but none is confirmed as Guanyue-owned. U.S. trade-compliance status is HOLD despite current panel certification evidence.

DRAFT / CHỜ DUYỆT. Image check: PASS for wood/factory relevance. The images are associated with the Hào Hưng group or Quảng Ngãi operation and show wood stock, factory premises and an industrial production line. Confirm that they belong to the Hào Hưng Long An legal entity/branch before ~~buyer-facing publication.~~

DRAFT / CHỜ DUYỆT. Image check: PASS for visible wood/plywood relevance. All three images are regional/industry reference candidates from public sources and are not confirmed as Hao Lai Ke-owned. Public evidence supports plywood trading activity, but factory ownership is not verified.

DRAFT / CHỜ DUYỆT. Image check: PASS for wood/plywood factory relevance. The three images show plywood pressing, wood-panel processing or veneer production in Bình Dương, but none is confirmed as Heyday-owned.

DRAFT / CHỜ DUYỆT. Image check: PASS for visible plywood-factory relevance. The three images are northern-Vietnam plywood production/warehouse reference candidates and are not confirmed as HMTD-owned. U.S. trade-compliance status is HOLD.

DRAFT / CHỜ DUYỆT. Image check: PASS. All three images visibly show plywood, veneer stock or finished plywood transport and were downloaded from Hoa Linh's official website. Exact image date and current site condition are not independently verified.

DRAFT / CHỜ DUYỆT. Image check: PASS for visible plywood-factory relevance only. The three images show a plywood factory, veneer hot-pressing and wood-panel production, but they are TT Plywood reference images and are NOT confirmed as Hoang Anh Duc-owned.

DRAFT / CHỜ DUYỆT. Image check: PASS. All three images are direct factory images from a public article specifically about Hoang Gia Yen Bai: entrance, veneer workshop and dust/air-handling equipment. U.S. trade-compliance status is HOLD.

DRAFT / CHỜ DUYỆT. Image check: PASS. All three images identify Hoàng Lâm directly: factory sign and two public BIS-audit images. Audit completion is visible, but a current BIS licence number/certificate copy was not independently verified.

DRAFT / CHỜ DUYỆT. Image check: PASS for visible wood/plywood relevance only. The three images show plywood production, veneer stock or wood-processing equipment. They are reference images from public Yên Bái/Tuyên Quang wood-industry sources and are NOT confirmed as Huang Guan-owned.

DRAFT / CHỜ DUYỆT. Image check: PASS. One image is from a public article specifically identifying Huiling's plywood production; two are relevant Tuyên Quang plywood/wood-processing reference images and are not confirmed as Huiling-owned. U.S. trade-compliance status is HOLD.

DRAFT / CHỜ DUYỆT. Image check: PASS for wood/plywood relevance. One image is specifically captioned as Hưng Thịnh Bắc Giang's plywood factory; two images are clearly labelled reference images for Lạng Giang/Bắc Giang veneer-plywood production and are not confirmed as company-owned. Drive

~~currently contains one harmless duplicate upload of the third~~
DRAFT / CHỜ DUYỆT. Image check: PASS. All three images come from the company's official website and visibly show veneer or plywood products. FSC/CARB claims remain pending current certificate-copy verification. U.S. trade-compliance review required before commitment.

DRAFT / CHỜ DUYỆT. Image check: PASS for wood/plywood relevance only. The three files are clearly labelled reference images from a public Bình Phước plywood-factory source and are NOT confirmed as Huy Khanh-owned. Public operational evidence is limited.

DRAFT / CHỜ DUYỆT. Image check: PASS for wood/plywood relevance. The three uploaded files are clearly labelled reference-industry images and are NOT confirmed as company-owned. Latest public FloorScore copy found expired on 31 July 2026; obtain the renewed certificate before using the claim.

DRAFT / CHỜ DUYỆT. Image check: PASS for wood/plywood relevance. The three uploaded files are clearly labelled reference-industry images and are NOT confirmed as Jiu Jiu-owned. Registry address conflicts with the source workbook location and must be checked by phone.

DRAFT / CHỜ DUYỆT. Image check: PASS. All three images visibly show Junma's factory, plywood production or export loading. HOLD for U.S. trade compliance: July 2026 final AD/CVD determinations supersede older favorable press reports. Do not publish an exemption/no-duty claim without current legal review.

DRAFT / CHỜ DUYỆT. Image check: PASS for Junma/plywood relevance. The three uploaded images are Junma Group / Junma Phú Thọ reference images, not confirmed as Junma Yên Bái-owned; do not present them as the exact Yên Bái factory without confirmation. Public ICC-ES certificate copy expired 23 February 2026.

DRAFT / CHỜ DUYỆT. Image check: PASS. Two uploaded images visibly show the Kangda Board company name during a documented project signing; the third is a clearly labelled reference image of a wood-panel warehouse. HOLD for certificate renewal and U.S. trade-compliance review.

DRAFT / CHỜ DUYỆT. Image check: PASS for wood-panel relevance. All three uploaded images are clearly labelled reference images from another Bình Dương wood-panel warehouse and are NOT confirmed as Khang Quân Thịnh-owned. A same-name 2024 legal entity with different representative/phone was excluded to avoid false matching.

DRAFT / CHỜ DUYỆT. Image check: PASS. All three uploaded images came from the company website and visibly show the Kim Gia factory and plywood products. Legal/address wording reflects post-2025 provincial administration; confirm courier wording before sending materials. HOLD for U.S. trade-compliance review and renewed CARB/EPA evidence.

DRAFT / CHỜ DUYỆT. Image check: PASS for plywood/wood relevance. The three uploaded warehouse/loading images are explicitly named REFERENCE and are NOT confirmed as Kim Sen-owned; do not present them as the exact factory. The listed website vanepkimsen.vn was unavailable during this research.

DRAFT / CHỜ DUYỆT. Image check: PASS. All three uploaded images came from the official company website; they visibly show the Lechenwood factory and engineered-wood flooring applications. Current registry shows the post-reorganization locality as Thanh Thịnh, Thái Nguyên; older/source list wording is Chợ Mới, Bắc Kạn.

---	--

[illegible]

HIGH: 0963 336 800 and the Phú Xá factory are supported by environmental/government sources. MEDIUM: other numbers come from public directories or recruitment posts. The exact lot for Business location No.1 was not found.
MEDIUM: mobile/email come from the original source list; landline from a public business directory; branch address from a company-information database and social recruitment evidence. Address variants conflict.

HIGH: official website confirms address, 0903 929 789 and c-holding@c-holdingwood.com. The second phone and email come from the original source list. Facebook ownership should be confirmed before outreach.

HIGH: address, two named mobile contacts and email are repeated in an updated Vietnamese Yellow Pages profile; the source list independently supplies Ms. Le and 0934 805 691. Website/social ownership and all capability claims still require direct confirmation.

MEDIUM-HIGH: legal identity, activity and 0868 385 980 are supported by the current tax listing; 0868 385 480 and email come from the source list. Lot 17 is repeated in customs, recruitment and trade-data sources, but newer tax registration shows Bai Lat/Tam Tien.

HIGH for tax identity, Binh Duong address and phone from company-information sources. LOW for Li Jinrong and the source-list Chon Thanh/Binh Phuoc location because they conflict with the registered data. No verified email or official social page found.

HIGH for legal identity, address and certification scope: registry sources and ICC-ES certificates converge on the same production line. MEDIUM for the two phones and email because they come from the source list and public directories rather than an official company website.

HIGH for legal identity, head-office address, phone and representative from current tax records. MEDIUM-HIGH for email and certification from the source list. The Facebook post is an exact-name product/factory source but is not an official company page.

HIGH for legal identity, factory address and plywood activity from provincial government, national press and registry sources. MEDIUM-HIGH for phone/email and certification from the source list. Facebook is an exact-name company page, but ownership should be confirmed.

HIGH for legal identity and phone from source list plus public profile. MEDIUM-HIGH for address and the second email; a parcel-number variant appears in another public record. Product and certification claims remain unverified.

HIGH for legal identity and core contact set from tax/profile/source-list records. MEDIUM for the additional landline and detailed head-office wording. Certification identifiers conflict across public sources; capacity unit is clearly suspect.

HIGH for tax identity, main address, source-list phone/email and TPC-45 convergence across public mill lists. MEDIUM-LOW for the current branch status and legal representative because public records conflict.

HIGH for legal identity, address, plywood activity and source-list contact convergence. MEDIUM for phone/email because no official website was found. The phone is also publicly associated with C-Holding Wood, so entity ownership must be confirmed during the call.

HIGH for tax identity, current registry phone/address and active plywood branch. MEDIUM-HIGH for Yellow Pages contact and company-supplied product/area claims. The representative and parcel numbers changed across records.

HIGH for legal identity, active status, CN1 operating address and plywood/certification history. MEDIUM for additional phones and LinkedIn ownership. LOW for the masked email. Lot number and representative differ across records.

HIGH for legal identity, phone and factory location from registry plus official ICC-ES certificate. HIGH for the former certification scope, but the published ES-151 certificate expired on 2026-06-26. Image ownership remains unverified.

HIGH for legal identity, active status, address and plywood activity. MEDIUM for source-list email/contact. The two phone records differ by one digit, so neither should be treated as confirmed until called. Current certificate evidence was not found.

HIGH for legal identity, factory activity and Doãn Thị Nguyệt from registry plus a named local press investigation. MEDIUM for overseas contacts and website from producer filings/source list. Factory, head-office and old registered addresses differ. Compliance status remains open.

HIGH for legal identity, operating address and plywood activity from registry plus official certificate and U.S. trade records. MEDIUM-HIGH for the 0365 number and greatwood-vn.com email from the July 2026 mill list. The source-list email uses a different domain. The official ES-122 certificate expired in 2025 and conflicts with the later TPC listing.

HIGH for company identity, plywood activity and former certified site. MEDIUM for Wallance Wong's contact from the source list/public mill list. LOW for the second short registry number. Business status is unresolved because public records conflict between active and stopped-operation status; the official SCS certificate expired in 2023.

HIGH for legal identity, address, website, 0915 number and two company-profile emails. MEDIUM for the source-list email and CARB mill listing until a current certificate is obtained. Capacity, second-factory and export-market statements are company claims that need documents.

HIGH for identity, official group page and June 2026 SGS certification. MEDIUM-HIGH for 0919 274 122 from the source list/public mill list. Older landline, email and certificate contacts require reconfirmation.

HIGH for company identity, factory address and workforce/contact evidence from registry and provincial records. Representatives and phone records conflict; current certification and website ownership are unverified. Environmental enforcement requires documented remediation.

HIGH for legal identity, address, product and reported capacity from registry/government/trade evidence. MEDIUM-LOW for available contact numbers. No verified public email, website or social channel was found; current certificate evidence is pending.

HIGH for legal identity, active status, address and 0964 566 901 plus email from registry/recruitment evidence. MEDIUM for product, market and certification details from trade/public mill sources. HIGH for the U.S. final-determination listing; legal application to a specific shipment requires specialist review.

HIGH for legal identity, address, registry phone and current CSi certification listing. HIGH for the published U.S. final-determination listing; legal application to a specific shipment requires specialist review. MEDIUM for FSC because it appears in a shipment description rather than a current certificate lookup.

HIGH for legal identity, head office, branch activity and factory recruitment contacts from registry/government sources. MEDIUM for source-list export contact and TPC listing. Group website/social affiliation, plywood product ownership and current certificates require confirmation.

HIGH for legal identity, tax code, address and registry phone. MEDIUM for plywood trade activity from shipment directories. LOW-MEDIUM for Mr. Fan and the QQ email because they come from the source list. Factory ownership and manufacturing capability remain unverified.

HIGH for legal identity, registered address, phone and principal plywood activity. MEDIUM-HIGH for the public 2026 certified-mill listing and foreign contact. Exact factory address, production scope and image ownership require direct confirmation.

HIGH for legal identity, phone, head-office address and active 2026 production branch from registry sources. MEDIUM-HIGH for product/export records from trade-data sources. HIGH for the final U.S. antidumping listing; application to a specific shipment requires specialist review.

HIGH for legal identity, address, official website, website phones and plywood activity. MEDIUM-HIGH for public shipment/product evidence. MEDIUM for the Gmail and Mr. Zhang because they come from the source list. Phone 0969 638 387 conflicts by one digit with the official 0969 638 887.

HIGH for company identity, tax code, registered address and principal plywood activity. MEDIUM for registry phone and current representative because public databases differ by update date. LOW-MEDIUM for the Gmail and Mr. Dong contact from the source list. Factory site, products and image ownership remain unverified.

HIGH for legal identity, hotline, email, plywood activity and 2022 factory evidence. MEDIUM for capacity/workforce/export figures because they are dated 2021-2022. MEDIUM for the current postal address due conflicting post-merger registry records. HIGH for inclusion in the July 2026 U.S. final antidumping determination.

HIGH for legal identity, tax code, factory sign, public address, registry phone and plywood activity. MEDIUM-HIGH for product and trade evidence. MEDIUM for CARB/BIS public listings until current certificates are obtained. LOW-MEDIUM for +84 68175556 because its format appears incomplete.

HIGH for legal identity, tax code, establishment date and principal plywood activity. MEDIUM for the phone, email and CARB mill-list association. LOW for factory capacity, products, markets, current postal address and image ownership because public operational evidence is limited.

HIGH for legal identity, factory address, registry phone, establishment date, designed capacity and plywood activity. HIGH for inclusion in the July 2026 U.S. final antidumping determination. MEDIUM for alternate/mobile phones, emails and detailed trade-platform product data. LOW-MEDIUM for the public CARB association because its listed contact/location conflict.

HIGH for legal identity, tax code, registration date, phone and plywood activity. MEDIUM-HIGH for factory scale/capacity/products because these come from a provincial technical-project report. MEDIUM for email/contact person from the source list. Certificate status remains unverified without current copies.

HIGH for legal identity, tax code, establishment date, official website, principal products and main official phone/email. MEDIUM-HIGH for two-factory capacity because it is company-reported. MEDIUM for alternate registry/contact details and certificate listings pending document copies. Trade-compliance status requires specialist review.

HIGH for the phone, email, contact person, factory address and CARB mill-list association because they appear together in the August 2026 public mill list and match the source workbook. MEDIUM for factory identity from a provincial list. LOW for legal-registration details, capacity, export markets and detailed products because no authoritative company profile was found.
HIGH for legal identity, tax code, registration date, registered phone and wood-flooring activity. HIGH for CARB/SCS certificate identity. MEDIUM for mobile/email contacts from public industry sources. Current certificate validity and capacity remain unverified.
HIGH for legal identity, tax code, registration date and plywood/veneer business. MEDIUM for phone/email/contact because they come from an industry mill list/source workbook and the phone uses the former area code. MEDIUM for trade-product evidence. LOW for capacity, current export markets and certificate validity.
HIGH for legal identity, tax code, establishment date, registered address/landline and official U.S. AD/CVD rates. MEDIUM for export and recruitment contacts. MEDIUM-HIGH for factory scale and workforce because public sources differ by date. Current capacity and certificate copies remain unverified.
HIGH for legal identity, tax code, registered address and establishment date. HIGH for provincial capacity/project evidence and 2026 trade descriptions. MEDIUM for phone set because public directories conflict. MEDIUM for export contact. LOW until renewed certificate is obtained.
HIGH for legal identity, tax code, registration date, address, registered phone and wood-product activity. HIGH for official July 2026 U.S. AD rate. MEDIUM for export mobile/email from a public mill list. Current capacity and certificate renewals remain unverified.
MEDIUM-HIGH for phone, email, contact and address because the same details appear in the source workbook and public mill list. LOW for exact legal identity, tax code, ownership, capacity, markets and certificate validity.
HIGH for legal identity, tax code, establishment date, official website, site phone/email, products and factory imagery. HIGH for FSC certificate and July 2026 U.S. notice. MEDIUM for current capacity because it is company-stated. LOW for CARB currency until renewal is supplied.
HIGH for legal identity, tax code, address, 2026 employment data and official provincial factory evidence. HIGH for directory-verified sales phones/email as of 2021 and current provincial HR line. MEDIUM for export contacts from the public mill list. LOW for certificate validity.

HIGH for legal identity, tax code, registration date, registered address/phone and official website. HIGH for current shipment activity. MEDIUM-HIGH for CSI CARB/EPA listing. MEDIUM for workforce data. LOW for current FloorScore/FSC validity until renewed documents are supplied.

[illegible]

Call 0963 336 800 first. Confirm whether the catalogue should go to Peter/psmill and whether the receiving site is Phú Xá or Diềm Thụy.
Call 0978 858 701 first; confirm the current factory address and recipient, then send the catalogue to youjiaji@gmail.com.

Call official hotline 0903 929 789; send the catalogue to c-holding@c-holdingwood.com and copy cuongnt@gmail.com only after confirming the recipient.

Call 0935 585 091 first, then 0934 805 691. Confirm the catalogue recipient and send to viethoaqnco@gmail.com.

Call 0868 385 480 first, then 0868 385 980. Confirm the current factory/receiving address and email recipient before sending the catalogue.

Call 0916 966 553; ask for Li Jinrong or the export/procurement contact, verify the factory location, and obtain an email/Zalo address for the catalogue.

Call 0899 216 939 first, then 0347 188 665. Confirm Mr. Xiong and the current receiving address; send the catalogue to 2701729372@qq.com after confirmation.

Call 0918 434 567; confirm which of the four sites should receive the catalogue and send it to manhcuong585@gmail.com after confirming the recipient.

Call 0966 647 889 and ask for Nguyễn Văn Thành or the export contact. Confirm the email recipient, then send the catalogue to ctminhthanhpt@gmail.com.

Call 0919 204 361; confirm the correct parcel number and catalogue recipient, then send to nguyenanpy@gmail.com and copy quangtrungmyphuoc@gmail.com if Mr. Trung is confirmed.

Call 0903 952 189 first, then 0909 340 888. Confirm whether the catalogue goes to the factory or head office and request the current TSCA/CARB certificate showing the correct TPC number.

Call 0938 060 187 and ask for Nguyễn Quang Khiêm. Confirm the correct legal representative, current branch status, catalogue receiving address and certification documents before publication.
Call 0903 929 789 and confirm that Nguyễn Thế Cường represents Đồng Tâm rather than C-Holding. Verify U.S.-bound certification eligibility before offering products for that market; send the catalogue to nguyenthecuong.fb@gmail.com only after confirmation.
Call 0908 719 608 first, then 0968 961 387. Confirm Mr. Yu/Yu Juntao, which site receives catalogues, the complete export contact and the current CARB certificate; use the two emails only after confirming the recipient.
Call 0983 600 184 first, then 0973 656 542. Ask for Mr. Wang Huadong or Zhu Xuguang, obtain a complete email/Zalo contact, confirm whether CN1 or CN5 is current and request the latest EPA/CARB certificate before sending the catalogue.
Call 0989 768 081 and ask for Ngô Thanh Thủy or export sales. Confirm the current factory/receiving address, request the renewed EPA TSCA/CARB certificate and send the catalogue to giaphat1688@gmail.com after confirming the recipient.
Call both 0976 091 628 and 0976 091 629, ask for Mr. Jin or Vũ Thị Thu Thủy, confirm the correct number and catalogue recipient, then send to forestplywoodpt@gmail.com only after confirmation.
Call 0986 816 428 first, then +86 181 6492 9222. Confirm the active factory and receiving address, catalogue recipient, current PCCC/environmental documents and current CARB/TSCA certificate before sending to the two emails.
Call 0365 588 887 first, then 0907 771 986. Ask for Mr. Wang or Lu Jianguo, confirm the catalogue recipient and correct email domain, and request the current CARB/EPA certificate before sending the catalogue.
Call 0388 188 887 and 0205 627 8686 before sending anything. Confirm whether the factory is operating, the correct Ngọc Thành/Tân Thành receiving address, the current catalogue recipient and renewed CARB certificate.

Call or message 0915 681 628 first and ask for Mr. Tinh or export sales. Confirm the receiving factory, catalogue email and evidence for the claimed 100,000 m³/year capacity and current CARB certificate before buyer-facing use.

Call 0919 274 122 first. Confirm the catalogue recipient, current operating/receiving address, active emails and current certificate copies before sending.

Call 0825 953 208 and 0888 201 097 first, then 0812 794 308. Confirm export sales, website/email ownership, current certificates and evidence that the 2022/2024 environmental issues were remediated before sending the catalogue or qualifying the factory.

Call 0225 263 8555 first and ask for Mr. Nie Chengwen, Xue Huabo or export sales. Obtain a mobile/Zalo/email contact, confirm the current factory name/address and request current certification before sending the catalogue.

Call or Zalo 0964 566 901. Ask for export sales, confirm catalogue recipient and receiving address, request current CARB/TSCA certificate and obtain trade-specialist confirmation of U.S. antidumping exposure before any U.S. offer.

Call 0969 010 783 first, then +86 152 6399 6860. Confirm export-sales contact, catalogue email, current CARB/TSCA and FSC documents, and obtain trade-specialist review before U.S. sourcing.

Call the Quảng Ngãi factory at 0255 385 2950 or 0339 713 928, then 0919 665 568. Confirm whether the branch manufactures plywood, identify export sales, verify the catalogue recipient and request current FSC/CARB/TSCA documents before sending.

Call 0963 877 878 first, then +86 137 5129 9717. Confirm whether the company owns or operates a plywood factory, identify export sales, verify the catalogue recipient and obtain the actual factory address before sending to 158479356@qq.com.

Call 0888 220 787 first, then +86 139 2619 8609. Confirm the Nam Tân Uyên factory lot, export-sales contact and catalogue recipient; request the current CARB/TSCA certificate and product specification sheet before sending to 583393580@qq.com.

Call 0989 152 174 and ask for Nguyễn Thành Hưng or export sales. Confirm whether catalogues should go to Hà Nội or the Chợ Mới branch, request current CARB/TSCA documents and obtain trade-specialist review before any U.S. offer.

Call 0969 638 887 first and ask for Mr. Đông/export sales. Confirm the source-list number, catalogue recipient, current factory capacity, CARB/TSCA/FSC/ISO status and U.S. trade exposure before sending the catalogue to nguyendong87@gmail.com.

Call 0961 780 079 first, then 0949 933 220. Confirm whether Lê Văn Đông is still the catalogue/export contact, obtain the actual production address and factory photos, and verify product specifications before sending to ctygohoanganhduc@gmail.com.

Call 0978 442 678 and ask for Ngô Quang Tùng/export sales. Confirm the current factory/courier address, latest capacity and compliance certificates, and the correct catalogue recipient. Obtain specialist trade advice before any U.S. offer; do not treat catalogue outreach as approval for U.S. sourcing.

Call 0386 413 617 first and ask for export sales/Mr. Hieu. Confirm the source-list number, current courier address, catalogue recipient, capacity, CARB/TSCA scope and BIS licence number before sending the catalogue to hoanglamvn@gmail.com. Review U.S. trade exposure before any U.S. offer.

Call +84 375 229 696 and ask for Mr. Liu/export sales. Confirm the exact current factory and courier address, catalogue recipient, product range/specifications, production capacity, export markets and current CARB certificate before sending to congty186vn@gmail.com.

Call 0207 389 8866 first, then +84 335 968 218. Ask for Mr. Xue/export sales, confirm the catalogue recipient and current certificate copies, and send only after contact confirmation. Keep U.S. sourcing on HOLD pending specialist review of the July 2026 antidumping rate.

Call 0962 751 388 and ask for Mr. Nguyen/export sales. Confirm the current courier address, catalogue recipient, current monthly capacity, product specifications, export markets and valid E1/CARB/other certificate copies before sending the catalogue to hungtienlucl@gmail.com.

Call 0915 681 628 first or 0914 083 288 for Ms. Nhung/export sales. Confirm the correct legal representative, courier address, catalogue recipient, detailed specifications, factory allocation and current FSC/CARB certificate copies before sending to huongsonwood@gmail.com or nhungmtn@gmail.com.

Call 0978 704 003 and ask for Ms. Nguyễn Thị Thúy Oanh/export sales. Confirm legal company name/tax code, current courier address, catalogue recipient, products/specifications, capacity, export markets and the current CARB certificate/mill number before sending to HuyKhanh.co.ltd@gmail.com
Call 0274 367 8268 first, then 0962 883 418 for Mr. Hong Chunji. Confirm the active courier address, catalogue recipient, current product catalogue, capacity, export markets and renewed FloorScore/current CARB certificate copies before sending to hcc1220@gmail.com.
Try 0274 626 0289 and ask for Mr. Feng/export sales. Confirm whether the legacy number is active, the factory/courier address, catalogue recipient, product specifications, capacity, Malaysia/other export markets and current CARB certificate copy before sending to fengmingjiu@qq.com
Call 0210 399 1117 or 0981 938 610 for Mr. Liu/export sales. Confirm the correct lot/gate, catalogue recipient, current capacity, specifications, markets and certificate copies. Catalogue may be sent, but do not make U.S. duty, exemption or eligibility claims until trade counsel reviews the July 2026 final AD/CVD determinations.
Call 0987 916 289 first, then 0981 938 610 and ask for Mr. Teng/export sales. Confirm the correct gate/courier address, catalogue recipient, current output capacity, species/specifications, Korea/Indonesia markets and renewed CARB/EPA certificate before emailing cynnda@iunmawood.com
Call 0276 388 5188 and request export sales/Mrs. Liu HaiHua; if needed use +86 135 3380 8247. Confirm the catalogue recipient, current capacity, specifications, markets and renewed CARB/CE/JAS copies. Do not make U.S. duty or eligibility claims until trade counsel reviews the July 2026 final determination.
Call 0975 049 843 and ask for Mr. Nguyễn Thanh Hải. First verify exact legal company name, tax code, operating factory/courier address and authority to receive a catalogue; then confirm products, specifications, capacity, markets and current CARB certificate. Send only after the recipient confirms_Khangquanthinh168@gmail.com
Call/WhatsApp +84 90 220 0987 first and ask for Mr. Tuấn or export sales. Confirm the correct courier gate, catalogue recipient, current capacity/specifications and renewed CARB/EPA certificate. Before any U.S. offer, obtain trade-counsel advice on the July 2026 rate and exporter pairing.
Call 0210 397 9666 and ask for Ms. Liên/TCHC or export sales; alternatively call 0844 563 999 / 0376 877 996 and ask for Ms. Gắm. Confirm the catalogue recipient, active sales email, current capacity/specifications, export markets and current CARB/EPA certificate before sending.

Call 0209 360 6886 first and request export sales; use 0969 010 783 or 0346 836 698 as alternatives. Confirm the courier gate, catalogue recipient, current capacity, plywood/flooring specifications and renewed FloorScore/FSC/CARB documents. Require trade review before U.S. plywood commitments
